About us

BeatGeek Records - Located in Melbourne Australia and Bangkok Thailand - is your premier source of fine electronica. We strive to source, produce, release and distribute quality music both from established producers and up and comers.

History

The BeatGeek phenomena began in 2004 when Blinky, a prominent Melbourne based producer and now BeatGeek Records resident, was asked to host a weekly show on Australia's only dance music radio station; KissFM Australia. He was asked to put together a show that was dedicated to supporting, showcasing and broadcasting electronic music made in Melbourne. Over the course of his involvement with KissFM Blinky has broadcast the music of hundreds of Australian artists countless thousands of people in Australia and around the world thanks to internet streaming.

In 2006 Blinky teamed up with Luke Ryley, widely respected Melbourne based DJ, Producer and Promoter with many years experience in the Australian music industry. The two had previously met whilst Blinky was playing at Luke's critically acclaimed aLive event and by early 2007 the two had begun forming the basis of BeatGeek Records.

In late 2007 Luke was offered work in Bangkok and now the operation is run jointly from both locations thanks to our good friend, the internet.

Mission Statement

Advance and expand culture, knowledge and enjoyment. We work towards these goals in all that we do.
